

LECTURE TOPIC FOR NEW THOUGHT GROUPS

Five Orders of Love

“Have you ever wondered about the ease with which we use the word love? Without thinking, we’ll say, “I love Strawberries” or “I love children” or “I love the smell of roses.” Problem is that when you use the word “love” that casually, it easily becomes associated with feelings and emotions that has nothing to do with love.”

The above is an excerpt from Ina Moody’s program offered to Unity Churches, Metaphysical Bookstores and New Thought groups. The lecture deals with the Chakra system, particularly the fourth Chakra (the heart Chakra) and the five orders of love as taught in Yoga Psychology. The talk is approximately 45 min. plus Q & A.

The program is offered at no charge to your group as it is part of the promotion of Ina’s new book, SAGES AND SINNERS. In this book, the fictional characters deal with love and relationships against the background of a Yoga ashram where Eastern philosophy interacts with Western thinking.

To avoid turning the program into a nonstop commercial for the book, Ina will use her knowledge of Yoga to discuss:

- How the Eastern concept of *Five Orders of Love* as taught in Yoga psychology operate within a relationship in a contemporary setting.
- How Hatha Yoga is only the beginning to dimensions that are outside the reality, we – as a society – have agreed is the only reality.
- How Eastern philosophy views divinity and love, and how it differs from the Western concept.
